

LITERATURE + EVIDENCE

LingoScholar

Turn sources into a study.

A connected reading room for timber research.

01 FROM ORIGINAL SOURCE TO RESEARCH RECORD

WORKFLOW SCHEMATIC / SOURCE - EXCERPT - STUDY

DISCOVER

Explore the timber literature by material, topic and method.

CONNECT

Link evidence to specimens, physical meanings and study revisions.

REVIEW

Keep excerpts, source locations and researcher decisions together.

PRESERVE

Carry original sources and retained records in portable study exports.

Catalogue coverage is growing, not exhaustive. Reviewed evidence and numerical records retain their stated research limits.

Your research perspective is welcome.
